Grape Madai  
(ぶどう真鯛)

From the mesmerising Kujuku Islands, Sasebo, Nagasaki, comes the Grape Madai. Boasting a vibrant red-pink colour, the fish is fed a unique diet that is rich in grape seed polyphenols. Reared naturally without any medications and in a stress-free environment, the fish has a subtle fruity sweetness and a firm texture.

Akune GOLD Wagyu  
(阿久根ゴールド和牛)

Behold the gorgeous marbling of this wagyu, which is owed to the cattle's staple diet that comprises a nourishing mix of pasture grass, rice straw and grains. The cattle are reared in the heavily forested terrains of Kyushu, where clean air and spring water abound. This results in exceptional wagyu beef, from its buttery mouthfeel to incredibly rich flavour.
